

# NATURAL PORTRAITURE

My aim is to offer a completely new type of personal portrait photography that breaks the cliches of posed artificial highstreet portraits and presents something fresh, with movement and above all personal to the individual. I call this natural portraiture. I believe that contemporary portraiture needs a relaxed and imaginative approach by both me and the subject working together to produce the perfect image. I try to capture subjects in their own special environment revealing a person's true essence.

## NATURAL LIGHT

The most sophisticated studio lighting available can only mimic the beauty of natural light. Natural light is often the most flattering, most spontaneous and most realistic light we have available to us. I have a daylight studio as well as a conventional artificial light studio and also the marvellous locations of Guernsey to choose from for your portrait session.

## NATURAL EXPRESSIONS

Artificially posed photographs often look, false, stiff and unflattering. My approach, takes more time for both of us but produces a much better end result.

## NATURAL BEAUTY

I believe that all people are beautiful, not just those whose appearance match the fashion of the day. The photographer's role is to find this natural beauty and let it come through in the images.

## FINDING OUT ABOUT YOU AND YOUR TASTES

Everyone is different and these are your photographs, so I spend time meeting you before the shoot and finding out what you like. We also look at past examples of my past work to see which styles and effects you feel are most appropriate to your shoot. We'll also talk about choices of clothes and props for the shoot.

## THE SHOOT

Once we have decided on an approach and location we organise the photo shoot. It will take between 1.5-2 hrs hours and will result in 20 - 30 finished images for you to choose from. After the shoot I will review all images and select the best for some simple retouching and colour balancing.

# CONTEMPORARY PORTRAITURE

## REVIEWING YOUR PICTURES

Approximately 10 days later we will meet again to view the images that have been worked up. On the index print you will see a variety of images including some Black and White, some Colour and some with special image effects.

# MAKING THE MOST OF YOUR PICTURES

## PRINT STYLES

All of your hand prints can be presented in the following styles to suit your tastes and your decor.

Colour - warm and saturated

Sepia - for that warm black and white look

Hand Tinted - to show just a hit of colour

Cross Processed - a modern fashion feel to the shots

Split Tone - a modern style on monochrome with a twist

All hand prints are individually produced by the photographer on specially imported textured archival matte watercolour paper (which minimises reflections behind glass and has special archival qualities, lasting for 75 years which is longer than any other photographic print). Hand made print sizes vary slightly according to the best cropping of each image and are printed slightly oversize to allow for window mounting.

## COMPOSITES, CANVASSES AND CONTEMPORARY FRAMING IDEAS

Why not take advantage of our design and framing service to produce an original artwork for your home based on your pictures?

Do you have a wall space that needs filling with some Artwork or do you have a specific space in mind for your favourite shots?

If so give us the dimensions of your wall or even better a digital picture of the space and we will design an artwork to fit. Once we have been given the dimensions and you have chosen the pictures we will mock up a visual of the finished image on your wallspace for you to amend and approve. We then organise the printing and framing for you so all you have to do is to hang the artwork in your home.

**HAND PRINT PRICES** (includes mounting and cellophane wrapping)

A2 (16 x 24 inch) £100

A3 (12 x 16) £50

A4 (8 x 12) £30

# CHOOSE FROM THE FOLLOWING STYLES:

## CLASSIC FRAMED COMPILATIONS

One picture is worth a thousand words but several images together tell a story. These are hand printed on water colour paper having been hand retouched and tinted according to your wishes. The photographs are cropped and treated to make them work beautifully as a set. These are then framed with window mounts and classic frames. We frame in modern styles including block mounting, acrylic or simple metal frames.

## MULTIPLE CANVASS INSTALLATIONS

Designed to hang as a set but printed as individual canvasses this is a stunning contemporary way to create an artwork from your pictures

## CANVAS PRINT PRICES

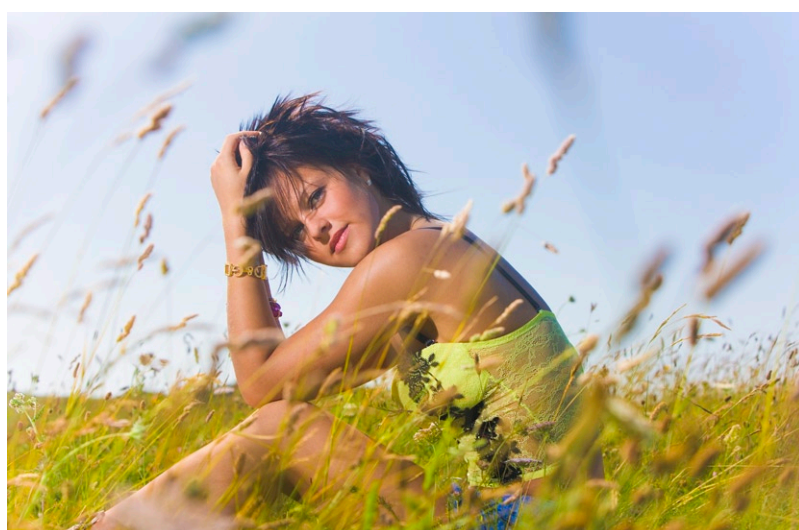

A2 (16 x 24 inch)	£210
A3 (12 x 16)	£110
A4 (8 x 12)	£75

Custom Sizes by Quotation

## GRAPHI STUDIO ALBUM PRICES

8 x 12 inch 20 side album with dust jacket cover	£260
8 x 12 inch 30 side album with dust jacket cover	£340

(Additional Sizes Available)
